PREFATORY

Dear Readers and Well-wishers,

As His Will would have it, so far I have been ordained by Him to bring out some of the works on ORIENTAL NADI SYSTEM OF ASTROLOGY. This book on HORA SHASTRA, to the best of my knowledge and belief would enable the readers to presentient the native's answers, well before questioning the native and trust this book is elusive. This is a Divine subject, more so a supernatural one and I have tried my best to compose this book with practical examples and however, how many more births a native would require to digest this subject always remains, a great flabbergaster. By Her Grace Mercy The Goddess Saraswathi and Ambika I have entured most humbly to place before you, the readers this book with a notion of Serving At Her Feet.

In this connection my grateful thanks of profoundness to Sri. Ashok Kumar, Assistant Director YAVANIKA for his great help.

Trust that, you my well-wishers and patronages would kindly offer me rest for my pen in future, so that I would spend the rest of my life in the Meditation at the Feet of The Lord Sri. Hari.

I am ever yours at
The Service of The Feet of
The LORD SRI HARI.

INTRODUCTION TO KASHYAPA HORA

While taking into consideration many of the voluminous writings on the subject of Astrology, the quintessence of the Great Nadi System is found to be of utmost value and Kashyapa Hora stands to be the greatest method for obtaining greater degree of results as far as the predictive part of Astrological Science is concerned. Hence the Great Sage, on the banks of the Holy river Cauvery, one of the Great places of South India in the present State of TamilNadu, delineated to his students the Great Kashyapa Hora, a great presentation to the world of Astrology.

The Nadi System was well delineated by such Sages choosing the script of DEVA NAGARI which was in vogue during those times. The various, innumerable stanzas are in the form of both Tamil and Sanskrit languages. So, it is a mixture of Sanskrit version.

In this system, the entire Shastra is delineated in the form of conversation between the Master and the students and the quintessence of this system, mainly deals with the concept of time pertaining to Hora - i.e., to say at what exact time the questionnaire comes for consulting an Astrologer, and depending on that time, the predictive parts are deduced. This valuable system enables an Astrologer to know or to write in advance, what are the questions the questionnaire desires to ask and what are the answers (results) for such questions. The same can be well predicted through this great system. In this book, such versions are delineated for the benefits of the readers through many charts.

It is quite possible, that during a Hora, two or three persons may come for consulting an Astrologer, but how to analyse them, and how to predict accurate answers in such cases are also dealt with in the following pages. Ipso-facto (needless to say) it is by the grace, the blessings of the Almighty, I am just trying to place here before the readers of

In this book, some of the slokas of the great Sri VARAHAMIHIRA in original is included and this is well related authentically to this HORA SHASTRA.

What is meant by HORA ?

It is established by the great learned of the past that there are 24 horas commencing from the time of Sun rise of a day to the next 24 hours closing with Sun rise of the next day. From Sun to Saturn planet 7 Horas, and seven days are considered. So, Hora means, the time at which the questionnaire comes for questioning / consulting on a particular week day, at a particular time, pertaining to such appropriate Hora and what are the planetary combinations at that particular time forms the Hora, i.e., to say it must be noted that at what Hora the person has come for consultation, is taken for consideration.

SLOKA

DIVASASYA CHATUR - VIMSHA KAALA HORAA HA PRAKEER

HOORA NAAMCHA PRAMAA NAAM SYAT SAR DHA DWI
GHATIKAA SMU TAA HA:

Every day from the time of Sun rise to Sunset it is 12 Horas. Again from Sun set till next day's Sun rise it is 12 horas. So, morning 12 and night 12, a total of 24 Horas.

7 HORA AND THEIR LORDS

For Example :

On a Sunday the first Hora will be of Sun. So, when the Sun rise is at 6a.m., the first Hora is of Sun from 6a.m. to 7a.m. The next Hora from 7a.m to 8a.m is Venus Hora. Tables given in this book explains the subsequent Horas.

On a particular week day, the governing planet's Hora is the first Hora.

For Example :

1. Sunday - Ravi (Sun) Hora.
2. Monday - Moon Hora
3. Tuesday - Mars Hora
4. Wednesday - Mercury Hora
5. Thursday - Jupiter Hora
6. Friday - Venus Hora
7. Saturday - Saturn Hora

The accompanying Hora table explains the appropriate Horas according to timings based on the governing planets.

CAUSITIVE KARAKATWA/EFFECTS OF HORA

Causitive effects of Hora planets :

By applying the principles of Transit to the birth chart of natives, results for the native's periodic situation could be obtained.

In Hora, the planetary positions on the day, and the time of consultation, by the native, is taken for delineation.

HORA

The planetary position at the time of consultation of the natives are considered and assessment can be made regarding the question of the native.

For Example :

In a native's birth chart if Sun and Jupiter are together in a particular sign, predictions can be given regarding natives father to be a notable person and also having spiritual thoughts etc.

But according to Hora, if these two planets are together in a sign on the day and at the time of native's consultation and according to Hora, if it is a Jupiter's Hora, then we are considering regarding the native, the same combination can be assessed as political support and such achievements, and also there will be great cooperation from big personalities, notable persons. Therefore, we have to consider the difference between the causitive effects of birth chart and the time of Hora effects. The planetary effects of planets are very important for consideration, including Kala (Time), Desha (such places accordingly), and the future.

Causitive effects of planets in Hora

Guru Kashyapa Maharshi while discussing with his disciples regarding the causitive effects of planets in Hora, says, that there is a difference between Hora and Natal charts regarding the planetary effects.

DISCUSSION BETWEEN MASTER & DISCIPLE

Disciple:

Master, how could there be a difference between the Hora and the natal planetary combinations when the planets have their own specific nature ? How to distinguish varied nature of the planets and its effects ?

Master:

Yes - your question on the surface looks correct, but you have to observe that a woman is called by his son as a mother, and she becomes wife for her husband, and sister to her brother/sister. Here the woman is one and the relationship of woman undergoes different changes depending on persons involved / circumstances. For instance, a man can enact as Rama in a drama and he may be either a good man in personal life or may be a thief, but for the reason ha has acted as Rama he will not become Rama.

Now let us discuss the planets in the above form, where Mercury and Mars combination in Natal charts gives the result of 'impediments in educational lines' (i.e. Vidya Bhanga). Also indicating the native will have knowledge in technical line. When this combination appears in Hora, there will be quarrelling between/among brothers/in business affairs. Sometimes between partners also or with blood relatives. Anyhow, these two planets combinations is considered as quarrelling aspects., while considering the predictions from the Hora point of view. Further, Sun is the causitive planet for father and Moon for mother. In Hora Sun is eminent person having Raja karya where Moon represents mother. If Moon is under the control of Dragon-Head there will be indications of mental aberrations.

If Sun is under the control of Dragon-head, it indicates problems/hardships to native's father or to the elder son of the native. . .

So, as per Hora, we are taking combination of two planets and their causitive affects. In the following paragraphs, let us discuss some of the causative effects of each planet with other planets.

SUN + MARS :

This combination indicates that two powerful/notable person are awaiting for helping hand from the native and out of them one may be a blood relative to the Hora Lord.

For instance, if the Hora Lord is Saturn i.e. at the time of consultation and if Sun and Mars are with Saturn, then it indicates, the Hora Lord will have to encounter/overcome some inimical situations. If Sun and Mars are in 5th and 9th to Saturn and if Sun is in 5th and Mars in 9th to Saturn, then the native will have to encounter/overcome some major disturbances/obstructional aspects either from governmental sides or political sides/or troubles through police or from an angry person. if these two planets are in 11th to Saturn, the native (Saturn) enjoys supporting factors and it can be noted that even persons who were supposed to be enemical to the native will become friends and work as supporting persons. 3 - PLANETS / OTHER PLANETS COMBINATION

Before actually beginning for discussion of 3 - planets combination, it would be necessary to make a mention

that if all the planetary combinations are to be delineated in details it runs to several hundreds of pages. Hence, considering the limitation of this book, few combinations are given here as hints.

Comparisons :

Sun is the governing planet of father in Natal Chart and in Hora also, Sun indicates governmental aspects, father and dragon-tail indicates Matha-Maha (Grand-mother) in Natal. But in Hora Dragon-Tail indicates litigations and impediments/breaks etc. Saturn is governing planet for work and also he is the son of Sun. Venus is the planet of wife in Natal and Hora. In Hora the same Venus represents house and wealth.

Now let us discuss the planetary combinations with some examples :-

1. SUN + DRAGON -TAIL + SATURN :

Sun is father, Dragon-tail, litigation.

Saturn is the son of Sun.

Hence Sun (father), Tail (litigation),

Saturn (Son). So, indications of some litigational aspects between the father and son due to misunderstanding because Dragon-Tail is in the middle.

AND

if it is Sun + Saturn + Dragon-Tail, it indicates the father and son both are unitedly fighting against some litigational aspects, and trying to find some solution.

2. SUN + SATURN + DRAGON-TAIL + VENUS :

Both father and son together unitedly fighting against some litigational aspects regarding wealth, house property etc.

3. MARS + VENUS + DRAGON-TAIL :

Mars is husband. Venus is wife and they are together facing some litigational aspects.

4. MARS + DRAGON-TAIL + VENUS :

Mars (husband), wife (Venus) are quarrelling between themselves (because there is dragon-tail in the middle)

OR
it indicates that one of the native's brothers is having some problems in his family life.

5. Venus, Mars, Dragon-Tail - Mercury and Moon (in successive degrees) Venus (wife), Mars (Husband), Dragon-Tail (litigation), Mercury indicating property, Moon (mother) indications are that both husband and wife are unitedly facing litigational aspects regarding some property belonging to mother or mother-in-law.

6. SATURN HORA :

Saturn, (Moon) + Dragon Tail + Jupiter. Saturn (work), Moon (accusations), Dragon-Tail (litigation) and Jupiter (Judge).

Hence, it is an indication that the question is about the native questioning regarding his career when he has committed some mischief (Moon indicating mischief) and Dragon-Tail indicating litigation. Hence the native is charged, following the mischief, and facing in accusations a court of law.

Also, the native, under the prevailing circumstances is under suspension from service for the reasons

mentioned above.

PRINCIPLES OF HORA :

1. If there are 2 to 3 planets in a particular sign, consider the degree of each planet or the division of stars and their padas. The degree, minutes and second position of each planet at the time of consideration are to be taken.
2. At the time of a native's consultation, the Hora planet must be taken for consideration - i.e. Guru Hora, Budha Hora, Saturn

Hora etc., accordingly, and it must be noted at what exact position and the degree at which the planet is situated or in other words, considering a particular sign, the note must be made to what extent a planet has passed in particular sign considering its degree. So, the position of planets in degree must be taken as important factor at the time of consultation by a native.

3. Commencing from the Sun rise of a day till the time of Sun set, it is 12 hours and again from the day's Sun set till the next Sun rise there are another 12 hours. Thus the totalling 24 hours. So, there are 24 horas i.e., 1 hora for every 1 hour.

During the tenure of these 24 hours, the various planetary degree must be kept as a ready reckoner for 24 Hora charts for each day.

4. In this way after preparing 24 Hora charts, it is essential to record at what exact Hora time a native has arrived for consultation and in that manner the exact Hora must be noted down. And after deciding the Hora, the relevant planets position must be noted for prediction parts. 2nd, 7th (and also 11th) signs must be considered with respect to the degree of the planets and the causative effects of these planets must be considered for prediction parts. If there are planets in 2nd, 7th and 11th and whether they are friendly to the Hora Lord or inimical to the respective Hora Lord must be taken note of before prediction.

5. RETROGRESSION OF PLANETS :

If any planets are in retrogression they will be aspecting the rear signs from their position.

If the Lord of Hora is in retro motion, and if they are any friendly planets in the rear sign, then the Hora planet (the native) enjoys beneficial results.

If there are inimical planets for the Hora Lord on the rear sign, then inauspicious unwarrentable results are expected to the native.

If the rear sign planet is aspected by friendly planets from its 7th aspect, then it is beneficial.

If the above planet is aspected by inimical planet from its 7th, then inauspicious / unwarrentable results are obtainable. In order to enlighten the above factors, in the following paragraphs we give examples through various charts.

EXAMPLE CHARTS

CHART - 1

DT			Moon Sat
Mars			Rx Jup DH

Title - Bad to Worse - worse to worse

In this chart (1) Jupiter is retro in Leo with Dragon - Head and he (the native) expects some help, co-operation from the rear sign, where there is Saturn. But Saturn is with Moon and Saturn is aspected by major enemy Mars: situated in 7th from Saturn. Jupiter is not willing to stay with the Demon planet Dragon- Head, because, when Jupiter is with Dragon-Head he loses his strength, status and power. Hence Jupiter tries to leave Dragon - Head : and hence becomes retro., while expecting some help / support , benefits and status. But the rear house

Cancer is occupied by Saturn, where Saturn is already hopeless and helpless, because he is with the enemy of Moon and aspected by major enemy Mars. Mars and Moon are enemies to Saturn. Hence Saturn's position is miserable. So, the native who seeks guidance and help while consulting an Astrologer in Jupiter Hora (as in this case) who is in great distress had to approach his close friend for help, but his friend himself is already in a miserable position and finally arrives at a conclusion, that his position itself is far better than his friend's from who he thought of seeking help.

For the same chart, suppose if the questioner arrives in Saturn Hora, then saturn is native (Horadhipathi is the native) who is in great distress and suffering due to suppression, and humiliation imposed by his relatives and some of the acquaintances, because saturn is defeated by Moon and Mars. So, it is to be judged that the native has appeared for consultation about his great problems and humiliating situations, and trying to find some solutions for his problems. So, this becomes the 'question' part.

ANSWER :

The Retro Jupiter is the close friend of Saturn, who is aspecting on the rear sign where there is the friend Saturn. Hence, it can be deduced that the native will get favourable supporting factors resulting in beneficial aspects within a short time, will be the answer.

So, from the above it can be deduced and observed that, although the chart is the same (as in above case) still there is difference in Horas and hence the results varies according to Hora Lords.

CHART 2 :

DT			Sat Rx

Title : "A Friend in need is a Friend indeed"

In this chart, Jupiter is in Leo with Dragon Head and Mars (who are inimical to each other). Here, Jupiter becomes Retro, because he can't tolerate the enmity and the quarrelling between Dragon Head and Mars, hence Jupiter comes Retro., and hence tries to approach a friend who can help. His friend is Saturn who is in a good position, a wealthy, well - to - do one, invites his friend (Jupiter). Saturn and Venus are having 7th aspects to each other. where Venus indicating wealth. Hence Saturn is having good wealth and can support Jupiter. therefore Jupiter gets help, beneficial factors through his friend Saturn, by becoming retro. So, if Jupiter is the Hora Lord (the native) then the native who is in the critical position, gets support and help through his friend or in other words, the native because of his critical position is thinking of leaving his place, but a wealthy friend supports and helps him.

CHART 3 :

DH			JUP

Title : Help from Guru (Noble persons)

Here, the native has appeared in Saturn Hora, who is in the 10th degree of Leo and who is Retro and Dragon-Tail is in 5th degree, and second to Leo there are enemies of Saturn (Moon & Mars).

Therefore Saturn becomes Retro because of his precarious condition and on the rear sign there is the exalted friend Jupiter. So, Saturn by becoming Retro who (after passing 5 degrees) has to encounter with inimical planet Dragon-Tail and hence the result is that Saturn comes across difficulties because of inimical planet Dragon-tail who controls, and binds saturn. Anyhow, after such sufferings (after some months) when Jupiter enters Leo according to Transit, a friend comes to release Saturn and thus Saturn (the native) gets released from such suffering and binding .

CHART 4 : Hope for the best and prepare for the worst -

DT, VEN Rx

A Trap for Sacrifice)

Here, the native has appeared in Venus Hora, Venus is female. Mars is the husband who is in the 7th from Venus who is under the inimical control of Dragon-Head. Retro Venus is expecting some support and help from his close friend Mercury to save her husband from difficulties (and in order to help her husband). But Venus while trying to get help from the rear sign, there is Moon with Mercury. Here, the native (she) unfortunately, will be constrained to loosen her chastity belt as a matter of sacrifice in order to help her husband, and this is because of the tricks played by Moon who exploits the helpless condition of the Lady (where the wife wants to help her husband, but she becoming hopelessly helpless and she had to sacrifice her chastity).

PART - B : A Double edged knife is better than a many edged wife.

For the above chart 4, should it be Mars Hora, where 7th to Mars there is Venus (Venus is the wife of the

native). Venus retro is trying to enter a brothel (who has no norms of principles about chastity) and he native (husband) who cannot tolerate his wife's immoral activities seriously thinks of a suicidal act on his own life, because Dragon-Head is Kaala Purusha (anti-clockwise) and Mars is entering the mouth of Kaala Purusha, and hence the husband suffers humiliation and mental torture because of his wife's immoral behaviour and sinful activities.

So, from the above two charts, it can be observed that in Chart 5 Venus Hora wife is trying to protect her husband while she has to get seduced, and in same chart Mars Hora husband has to sacrifice his life, because of his many edged wife. It is stated by the wise that "a double edged knife is better than a many edged wife":

RESULTS OF RETRO-DIRECT MOTION (RUJU)

CHART 5 : Every Saint has a Past -

	Rahu		Jup Rx
			Moon
	Ketu		

Here it is Jupiter Hora. Jupiter is the symbol of intellect and who is retro-Direct and Jupiter is Retro-Direct and before that he was Retro. So, Jupiter, before coming to

retro-direct motion (the native) had bad association with immoral persons, drunkards and persons having many vices. But now as he is in retro-direct motion develops an inclination towards the path of righteousness and wisdom. But second to Jupiter there is Moon. Dragon-Tail is 5th from Moon. Moon and Dragon-Tail combination indicates Holy water and Holy places and hence the native, in the past, who had associations with wicked people, now is developing interest towards the path of righteousness and wisdom. According to planets in second to Jupiter indicates the native becomes a Saint.

It is to be noted that any Hora Lord, if retro and rear sign is occupied by inimical planets, then it can be deduced that the native who has having association with people of vices, in subsequent periods changes for good. If any Hora Lord is having bad planets in second, it is an indication that the native will have accompaniment with wicked people, in future.

Anyhow, after some months from the time of consultation, the Hora Lord becomes retro and if the rear sign is occupied by Holy planets, that indicates , first the native will be a wicked person, but later changes for better and higher positions.

INTERCHANGES IN HORA

CHART 6 : Worse to Good -

			MRS SAT DH
DT			
MER	Sun Moon Ven, Jup		

Here the native has appeared in the Mars Hora for consultation. Mars is debilitated in Cancer and who is in between two major inimical planets - viz - Saturn and Dragon-Head in the same sign, which indicates that the native is in desperate, deprived condition, almost feeling abandoned in life. Anyhow, it can be concluded that the native within a duration of 6-7 months improves to better position from the prevailing miserable condition.

DISCIPLE :

"Oh , Master, kindly explain how to decide that the native's position improves within a period of 6-7 months - kindly explain ?".

MASTER :

Of course, Mars may be in worst stage, but he is in the house of Moon & Moon is in the house of Mars. From Cancer to Scorpio for the transit of Mars, it takes a duration of 5-6-7 months. When transit Mars comes to his own sign (Scorpio) where there are his close friends and favourable planets viz-Sun, Jupiter and Venus situated. Sun is the royal friend where Jupiter is the supporter / guide and Venus indicating wealth. Hence, whatever may be the worst periods of the past, within 5 to 7 months time improves very much, and also the native in future can enjoy popularity (becomes a notable person) besides enjoying great status in the society, with commanding respectability. Hence it can be concluded that the prosperity and improvements are a sure sign for the native.

CHART 7 : Carrying Coal to New Castle -

In the previous chart, it was bad to good but here in this, it is good to worse and let us discuss how it is. The native appears in the Saturn Hora and the Hora Lord is with Jupiter and in the house of Venus (wealth).

		Sat Jup	
			DH
DT Mas, Ven Moon			
Sun	Mer		

(Good to worse)

Saturn is aspected by close friend mercury from 7th ; so the native enjoys good support from two persons (Jupiter and Mercury) are friends to Saturn. Therefore the native enjoys land benefits, respectability and fortune.

But to greediness for making more wealth, he goes to some other place, where there will be unfavourable conditions and thus loose his wealth, besides being subjected to inimical aspects, distress and sufferings. This is because, there is an interchange between Saturn and Venus (Saturn in the house of Venus and Venus in the house of Saturn). Before the interchange of Saturn the native was in quite a good and respectable position and because of greediness (as mentioned above), leaving his place, goes to some other place, when

Saturn comes to Capricorn and because of interchange with Venus, where Saturn will be under the control of Dragon-Tail, Mars and Moon and hence will be constrained to loose his wealth. Hence it can well be observed that the interchange may sometimes be beneficial and sometimes can be most unfavourable too. Hence the phenomena of interchange in Hora must be carefully taken into consideration for obtaining predictions.

COMBUSTION

Any planet, if it is within 1 degree of other planet and there is a combustion with another planet in the same sign, the following are the results of combustion :-

Example :

Sun is in 10 degree at Pisces, when Venus also comes to ten degrees in the same sign and this is Known as Combustion (ASTA).

In this combustion, although Venus is exalted in Pisces, but still Venus loses his strength. Even if there is combustion between friendly planets in the same sign, even then one cannot independently do without the other. Anyhow, the combustion among friendly planets is better than the combustion of inimical planets.

Venus & Saturn, Venus and Dragon-Head are friends to each other, and they may be in one and the same degrees then the affects will be normally good.

If Moon and Venus are in the same degrees then the situations will be that the daughter-in-law

will be afraid of mother-in-law. Here Venus is considered as daughter-in-law and Moon, the mother-in-law.

STAMBHANA : (Stationery)

Stationary means when a planet stays for more than considerable time in a sign (with an exception for Sun, Moon, Dragon-Head and Dragon-Tail), then it is called Stambhana.

For Example :

Mars is supposed to stay in a sign for a limited period. In case if Mars becomes stationary in a sign for more than the limit, then in such cases, if the native appears for consultation under such Hora (Mars Hora), then it can be concluded that the native has become stationary in a place more than expected.

For instance, if a native comes for consultation about a person who was supposed to be away for a period of 1 1/2 months, but if the party does not return in that time, the reason is because mars being stationary has made the native's party to be stationary for a period of 8 months (i.e. to say, if a native comes for consultation stating that the party who has left the house and who was supposed to return within 1 1/2 months did not return, then the aspect of stationary comes into picture) and hence the party instead of returning in 1 1/2 months will be returning after 8 months.

RULES NO. 1-16 (PRINCIPLES OF HORAS)

RULE 1 :

When the party comes for consultation in saturn Hora, if second sign to Saturn is occupied by Mars, who is enemy to

Saturn and Mars is stationary (6-8 months) - then at that time the native will have to overcome some of the inimical aspects during that duration of 6-8 months (i.e. from the time of consultation), because Mars will move after 6-8 months to the next sign and hence for the entire stationary duration of Mars, there will be inimical aspects to the native.

RULE 2 :

There are possibilities that some astrologers may not take into consideration Dragon-Head and Dragon-Tail because they are considered only as Chaya-Grahas. But in Hora they are taken as very important consideration for prediction. Some astrologers may not take into consideration some of the Stree (female) planets, but even they are taken for consideration here because moon is mind. Mercury is land (Bhoodevi, the wife of Lord MahaVishnu) and Venus for wealth. So, it can be well understood that every one is under the control of mind, earth and wealth and this is more so an inescapable embodying concept of the Divine Creation.

RULE 3 :

After making a note regarding the Hora Lord in which the party has arrived for consultation, 2nd, 5th and 7th signs to Hora Lord should be considered and decided whether there are friendly planets, or inimical planets in it.

RULE 4 :

It is to be decided at the time of consultation whether the Hora Lord is under combustion or rising (Udaya or Astha) and this is quite important not only for the Hora Lord but also such combinations should be considered regarding other planets also.

RULE 5 :

If the Hora Lord is associated with more than one inimical planet, then it is to be decided that the strength of the Hora Lord is weak.

RULE 6 :

If the Hora Lord is exalted and is with inimical planets then it is to be predicted that the native would not be able to enjoy any success in his efforts / endeavours, as far as the time of consultation is considered. If at all some benefits are indicated, then such beneficial aspects to the native can be derived out of extreme hardship and enormous difficulties.

RULE 7 :

If the Hora Lord is with friendly planet and if that planet is associated with inimical planet, then it is to be decided that the native suffers accusations.

RULE 8 :

Should it come to the aspect of Moon, then it is to be decided whether it is waning Moon or waxing Moon (full Moon or New Moon) must also be taken for consideration towards predictive parts. Any how, if the Moon is waning, then it is strong, otherwise it is weak.

RULE 9 :

If 3 parties come for consultation at a time, for the 1st party the Horadhipathi must be taken for consideration and for the second party the 5th sign from Horadhipathi and for the 3rd party, 9th sign from Horadhipathi

must be taken into account. If there are no planets for 2nd, third party in 5th and 9th signs, then we have to consider the successive planets. if the Hora Lord is associated with more than one planet in successive degrees, then for 2nd and 3rd party, the planets in successive degrees to Horadhipathi should be taken next and subsequent.

RULE 10 :

Suppose if the time in which the native comes for consultation comes under Jupiter Hora, where Jupiter in Aries and Jupiter is in 5 degrees, Saturn in 10 degrees and Venus in 20 degrees then consider Jupiter for 1st party, Saturn for the 2nd person and Venus for the 3rd person, because they are in successive degrees from the Hora Lord. Hence NAKSHATRA PADAS or more precisely DEGREES are to be taken into account in such cases.

RUEL 11 :

Occassionally, there may be such possibilities that the names of the respective parties coming for consultation may be in same "Bhava".

For example, the names may be Anantha, padmanabha, Sreenivasa who comes under the concept of the Lord MahaVishnu. Similarly it may be like Antony, Ananthswamy, Abdulla or it may be like Kashinath, Karim Khan, Kenneth More etc. Here the Bhavas are considered regarding the names of parties.

RULE 12 :

The nature of Hora Lord and the nature of sign in which Hora Lord is stationed are very important

for delienation. Now let us discuss this part in the form of an example. During the regime of King Tippu Sulthan, a Hora specialist visited the royal court. Then the King all of a sudden asked the expert - " Can you tell me what is in my closed palm ?". Then the expert said that the King in his fist is having something round and luminous object which is valuable. The reason for the same was that , at that time it was the Sun Hora in Aquarius. Sun is luminous and being in Aquarius indicates Kumbha(a pot which is opened at one end and closed at the other end) and Kumbha is round shape. Hence the Expert was able to decide that the King was holding something in the form of a pot which was luminous and valuable (also Sun indicating Gold). Actually the King was holding Gold.

RULE 13 :

If there are planets in 2nd and 11th to the Hora Lord, the nature of those planets must be considered.

RULE 14 :

Suppose, the party appears during Rahu Kala(under the aspect of Dragon-Head) at the same time Hora Lord also will have such effects of Dragon-Head. Therefore, the formation is Hora Lord + Dragon-Head = such effects accordingly. If the Hora Lord is friendly to Dragon-Head, beneficial results can be predicted and if the Hora Lord is inimical to Dragon-Head, then the results will be bad to the native.

In the same manner, for "Gulika Kala" also it depends whether the planets are friendly or inimical to the Hora Lord and such results vary accordingly.

RULE 15 :

If the Hora Lord is exalted and having an interchange with other planet, if the planet / planets involved in interchange are beneficial to one another then favourable results can be predicted.

RULE 16 :

If the Hora Lord is associated with more than one planet in the same sign, the degrees of each planet / s located in front and rear to the Hora Lord must be taken into consideration for predictional parts.

The following are the two charts 1) Hora Chart and 2) Native's birth chart and although there are similarities between the two, the changes in predictional parts can be studied ; hence the delienation is as follows :-

The native in this context has appeared with the following questions : the native is a female.

1. Regarding shifting of / place from her present living position,
2. Disputes at home.
3. Husband suffering due to various problems.

DISCIPLE :

Oh : Master, kindly explain how to decide that the native has approached with the above pattern of questions?

Master :

Here, observe the Hora Chart. The native has appeared in Jupiter Hora. Jupiter is native's life, Moon is in 9th to Jupiter and hence the native is asking regarding shifting (change of place), where Moon indicating travel and hence the first question is about shifting or travel or change of place.

2. Regarding Husband's irksome problems :

At the time of consultation as per successive degrees in Leo (east sign) Sun is first - next Venus, next Mercury and these three planets are associated in Leo (East) and Aries (also East) where there is Dragon-Tail ; hence combination of Sun + Venus + Mercury + Dragon-Tail prevails. Hence it is an indication that the native's husband has involved in litigation because Venus is her house. Sun indicating government and Mercury is friend of Sun who is against to Dragon-Tail and hence the Native's husband has problems landing him in the court of law, besides having some problems in domestic affairs.

3. Regarding the problems of native's husband :

Here, the native appearing for questioning is female (more so the wife) and Mars is the husband of native who is in Virgo. Mercury is in the last degree of Leo who is enemy to Mars - (and major enemy of Mars i.e. Dragon-Head in anti-clockwise direction is approaching) and Dragon-Head in 4th degree of Libra and Mars is in 26 degree, and behind Mars, Mercury is in 27th degree in Leo. On rear and front of Mars, there are his major enemies and hence it can be concluded that the native's husband is in irksome situation.

Here the master is explaining to the disciple that the native's husband has career in the department of agriculture in an important position.

DESCIPLE :

Oh : Master, I do not see such possibilities but kindly explain the above aspect.

MASTER :

Mars is the causative planet of native's husband who is in the house of Greenland (Kanya-Virgo is Green land), and Moon is in 11th to Mars and hence is an indication of soil and water. Mars is 11th to Jupiter and hence Mars enjoys respectable position(the native's husband) working in Agricultural Department.

The Master explains how the eldest son of native (female) enjoys great prosperity and this is calculated as per the Hora Chart, and its delineation are here under.

Sun is in starting degree, 5 degrees at Leo (East), Jupiter in north in 12 degrees, Moon is in 5th degree (north), Sun is in 2nd to Jupiter according to degrees. Hence Sun is having the aspect of Jupiter from rear sign where these two planets are nearer - thus indicating the aspect of JEEVATMA SAMYOGA and hence it can be concluded that the Native's son enjoys great prosperity during the sojourn of his life.

Regarding the Native's (female) Birth chart :

		Moon	DH,Sat Rx
Ven			
Sun			
MRS Mer.DT			JUP

Sagitarrius is Ascendant, Jupiter is in Virgo, Moon is in 9th to Jupiter - Jupiter and Moon in South indicating combination of Jupiter and Moon. Mars is the husband of the native who is with Mercury and Dragon-Tail and hence it is concluded that the native's husband is having career aspect related to Agricultural department.

DISCIPLE :

Oh: Master, kindly explain how the native's husband has a prominent (Head of the department) position in the agricultural department ?

MASTER :

There is an interchange between Mercury and Jupiter and because of this interchange Mars position is quite prominent and enjoys commanding respectability. And according to transit of Dragon-Tail to East (to Aries). at the time of consultation there is a tight corner situation to native's husband in his career because transit Saturn and Natal Saturn in the west. Hence this is explained taking into consideration the Hora chart where the aspect of transit and native's birth chart (female) has been taken into consideration. Also regarding the prosperity of native's son, Jupiter is in 9th to Sun in the native's chart and hence the native's son is a fortune aspected one.

In the following paragraphs, we are trying to determine how to decide the native's name who approaches for consulting and in the context we are first considering a female native, where for a female native's life is represented by Venus.

Venus in Leo :

Here, Sun is in starting degree at Leo, Venus in next degree, and after Venus position Mercury is nearest to last degree and Dragon-Tail in East.

To obtain the groupal name of the native, Sun is in the top (starting degree) and next there is Venus (Venus indicating lotus) and at the bottom of Venus, there is Mercury, which indicates leaf of lotus. Dragon-Tail is also in East who is the root of lotus and hence root + leaf + Venus at top there is Sun.

Hence Sun + Venus + Mercury + Dragon-Tail combination indicates the Lotus Flower (female) or Saroja, Padma and names pertaining to such categories.

DISCIPLE :

Oh: Master, there are billions of people on the Earth and one single thumb Rule is not applicable for obtaining the name of native. What are the other methods kindly explain ?

MASTER :

Before we actually enter into knowing the name, it is necessary to discuss some of the following universal concept of Nature and Basic principles. The three main Lords, Brahma, Vishnu and Maheswara must be taken into consideration, where Brahma - the creator, Lord Vishnu - the Saviour, Lord Shiva - Lord of Destruction. Now let us discuss who are the causative planets pertaining to the above three lords.

BRAHMA - Dragon Tail
 Jupiter + Dragon Tail
 Morning Sun
 Mercury + Dragon Tail

VISHNU - Mercury
 Evening Sun
 Venus

SHIVA - Saturn
 Mars
 Dragon Tail
 Moon
 Jupiter + Saturn
 Dragon Head (embodying concept of Kaala
 Purusha)

Now let us discuss the Goddesses pertaining to the above three Lords.

BRAHMA - SARASWATHI
 VISHNU - LAKSHMI
 SHIVA - PARVATHI

Now let us discuss the various planets pertaining to the above mentioned Goddesses.

SARASWATHI - Mercury
 Dragon Tail

LAKSHMI - Mercury
 Venus

PARVATHI - Moon

- Saturn, Moon (Parvathi , the universal Goddess, Mother)
 Mars (Shakthi Swaroopini)

So, different combinations of planets indicates the name of native under such headings.

Note : Even Sun has mostly Eswaramsha.

If any planet is in exaltation then it is to be noted in which amsha it is and what are the other planets associated, then the names comes as per the exalted Amsha of the exalted planet.

For example for Hindus :

Suppose the native who appears for consultation has combinations like Saturn and Jupiter. The name of male shall be considered with the life planet of Jupiter and any other planets associated with Jupiter should be noted. Life exists only where there is body - then it is to be noted what are the planets associated, its aspects and such planets come under what groups - i.e. - Brahma, Vishnu, Maheswara, while taking into consideration the time of native's birth.

And in the same manner, the same principles can be applied for females, also, where Venus is the causative planet of female.

For example :
 Srimad Shankaracharya :

Sri Shankaracharya's name was Shanka, later became Shankaracharya and finally Shankara Sri Bhagavad Pada because of Divine achievements. In this

case, Jupiter is the causative planet of life which is in Aquarius, Aquarius is the house of Eswara, where Moon (Parvathi) is 5th from Jupiter, thus indicating the native's name is similar to Lord Eswara. There is an interchange of Jupiter with the planet of Karma, Saturn hence Jupiter + Saturn - Guru Karma Yoga and Saggitarius Saturn and Aquarius Jupiter - KUMBHA GURU is having an interchange. Also the interchange is having the conjunctional aspects with each other i.e. Jupiter and Saturn, where Jupiter (Jeeva), Saturn (Karma - indicating Eswara) and 7th to Saturn there is Moon. Therefore, the native's name is connecting to Lord Eswara. Rear to Saturn there is Dragon-Tail and Rear to Dragon-Tail is west - chart of Sri Shankaracharya :

MRS	Ven, Mer,Sun	DH	Moon
Jup			
Sat	DT		

Moon also in the west - and as mentioned Jupiter is life, saturn is Eswaramsha and the Lord Eswara having his hairs long and falling like a Cascade (Jate) indicating Dragon-Tail and Lord Eswara having in his head the planet Moon, because Moon is in 7th to saturn and hence Sri Shankaracharya's name is akin to Lord Eswara.

Now let us discuss another example like Ganesha

Even this name is also similar to Lord Eswara.

	RX JUP	DH	MRS
Moon			
	Sat DT	Mer Ven	Sun

Jupiter is the native's life who is in Aries - 7th from Aries there are Mercury and Venus and these two planets aspecting Retro-Jupiter, hence the native's name has to be related to Lord Vishnu (because of Mercury and Venus). But Mercury and Venus are in 5th from Mars where Mars and Mercury are enemies and Mars (indicating spear and sword) has chopped off the Vishnuamsha. And Jupiter is retro who is having aspect towards the north sign Pisces. Pisces and Scorpio are north signs therefore saturn has full aspects of Jupiter indicating Lord Shiva, Dragon-Tail is the trunk of elephant. Therefore, the combination of Jupiter + saturn + Dragon-Tail is called the Eswara and in Hinduism we call Lord Ganesha.

DISCIPLE :

Oh Master : Mercury and Venus are together and what about Vishnuamsha. Kindly explain ?

MASTER :

Here it is necessary to go back to the Mythological background of Hinduism. At one time, it so

happened that Lord Shiva was constarined to chop off the head of Lord Ganesha. In order to bring back life, it was a problem. Then the life of Ganesha was rejuvenated by bringing and placing the head of an elephant and that elephant's name was Vishwambha, and the elephant was sleeping, resting its head facing north direction and its head was placed as a substitute to the chopped off portion of Lord Ganesha. He is also called Gajana.

From then onwards no person shall rest or sleep with his / her head facing towards north. Hence lord Ganesha is an embodying concept of both Eswara and Lord Vishnu.

Chart - 1 :

In the following paragraphs, we are discussing about the various aspects of a native's name and how it is connected with relevant Diety and Planetary combinations.

For Example :

Let us take a name like Jagannath. Where this name comes under Lord Vishnu, where Jagath means Universe and Nath means the one who protects. As all of us know there

is sky above and mud below. Where sky indicating the Dragon-Head and bottom of earth indicating Dragon-Tail and the Lord pervades as an omnipresent in all forms of life. Life is governed by the planet of Jupiter. He is called Jagannath. He appears in various forms for all ages and times like the versions of Sanskrit TAT SHUSTWA TADE - VANU PRAAVISHAT AHAM BHAVISHYAMI.

Hence is called the Almighty / the Paramatma. As already explained above, it is necessary to determine under what category of the God (Brahma, Vishnu or Maheswara). The native falls for males and for females the Goddess - Brahma - Saraswathi, Vishnu - Lakshmi, Maheswara - Parvathi. As already mentioned above Dragon-Head and Dragon-Tail are on top and bottom of the universe and if Jupiter (life) if having aspect of Lord Vishnu's name or his wife like Mercury and Venus then the native's name comes under such names. Venus indicates Goddess Sridevi and Mercury indicates Goddess Bhoodevi and Jeeva is having aspect of above two names where Sridevi and Bhoodevi being on either sides of Lord MahaVishnu.

For Jupiter when there is mercury and venus aspect on conjunction then the names will be similar to Janardhana, Jagannath, Jagadish etc. Jupiter is life, and for Jupiter in 5th and 9th signs if there is Venus and Mercury, then it indicates that the native's names is under the category of Lord Vishnu. If Jupiter is having planetary aspects connecting to Lord Shiva or Lord Brahma and then the native's name falls under such categories accordingly.

It can be noted that if there are other planets associated with Jupiter, then the weapons indicated by such planetary aspects must be taken into consideration.

Example (Chart 1) :

Jupiter is in Aquarius with Dragon Head hence the planetary combination of Dragon-Head + Jupiter and Venus, prevails. Mercury is 11th to Aquarius and hence Dragon-Head + Jupiter + Mercury combination prevails.

Hence here Mars is not accountable. Mars power gets reduced due to his enemy Dragon-Head.

For example : If we take Lord MahaVishnu's Chakra, here wheel indicates Dragon-Head and the teeth portion indicating Mars and hence the native's name under category.

Chart 2 :

Jupiter is in Pisces with exalted Venus. Mercury is 3rd from Pisces. So, the native's names comes as Jagannath with such combinations.

Mars may be 5th from Jupiter, but who is debilitated aspected by inimical planet Saturn - hence Mars power becomes weak. Hence the combinations of Jupiter + Venus + Mercury is only taken for delienation.

Chart 3 :

Example for name Janardhana :

Jupiter is in north, inbetween East and West there are Dragon-Head and Dragon-Tail = Maha Purusha. Venus and Mercury are 7th from Jupiter, here Jupiter is retro in North. saturn is also in North, but retro-Jupiter will not have attachment with Shiva planet of Saturn. hence the native's name falls under the category like Janardhana

Chart 4 :-

Master:

Mercury is debilitated in Pisces who is a female planet, who will have an interchange with Jupiter thus indicating the native loses one wife and will have to remarry a female who is already married lady, having one female child.

It can be observed that Mercury in Pisces indicates loss of one wife to the native, where Venus is the second wife who is with Moon (Moon is motherhood) and when Venus is Retro and in the rear house to Venus there is Saturn. Hence Venus enjoys with a person (Saturn) and becomes a mother also she will marry Mars, because as explained above. Jupiter aspects Venus and Mars. Venus and Moon are 9th from Mars. Venus is the house and Moon is the selling of house property, When Venus is Retro, he has got two types of strength. One is house and second is wife. From the above it can be observed that the native has lost one wife, and the 2nd wife is already married having a female child. So, this wife will have a career related to Government.

Venus is aspecting rear sign by Retro, where there is Saturn. (Saturn indicating Karma-Work). The Lord of this house Jupiter is far from the house and hence out of two female natives one female is suffering because, her husband has left her due to his wicked-mindedness.

Disciple:

Master, kindly explain, how to decide that her husband has left with his wicked-mindedness?....

Jupiter is the Lord of Pisces and according to the doctrines of astrology, life is governed by the planet of Jupiter (pertaining to male). Pisces is the house of husband for Goddess Laxmi where she is seated at the feet of the Lord. Mercury is also there. Mercury is debilitated. Mercury is the friend of Venus, indicating these two combination being in Pisces. Venus (the native) is having the nature of debilitated Mercury and also Moon is in third with Dragon-Tail. So, the nature of the wife is not accommodative to her husband, hence he walks out.

Solution:

When Transit Jupiter enters North, then there shall be a solution to their problems.

On a fine morning, when The Great Master Sri Kashyapar was in his ecstatic mood, he was discussing with his disciple Gandeeva, about matters pertaining to Brahma Gnana and law of justice.

Here the Master is narrating a story to his disciple and is asking his disciple to prepare a Kundli pertaining to the story he is going to narrate.

Then the disciple says, - Yes Master! By your Noble Grace, that I shall try to prepare the Kundali, and kindly narrate the story and thus the Great Master begins the story. (The readers are advised to prepare their own Kundali).

On the day when the Master and the disciple were discussing matters pertaining to Brahma Gnana and law of Justice, an incident happened as follows:

A prince and a commander-in-chief appear before the Great Master. They were in a hurry and worry, because, the sister of the Prince (the Princesses of the Kingdom) was found missing and the Prince and commander-in-chief had appeared before the Master to question about the missing princess. The king was in his head quarters, and the queen was also worried. Here there are some important points to be observed.

1) The prince and the Commander-in-chief are worried about the princess.

2) The king is worried because something unbecoming may or might have happened because of his enemies.

3) The queen is worried of her daughter in a different way, because, the princess was in the habit of sailing with boat on the sea quite often for pleasure. So it was possible something dangerous might have happened during her pleasure trip.

But in reality, the princess was involved in a secret sexual affair.

The chart is prepared and following are the results:

Mercury and Dragon-Tail conjunction indicates Brahma Gnana. Mars is the Commander. Mercury is the royal prince. Virgo is the exalted place for Mercury. Virgo is south. Tarus is south. Hence Jupiter+Mercury+Mars+Dragon Tail combination is present. The aspect of Brahma Gnana and matter pertaining to justice is indicated (where Jupiter is indicating guide). Sun is the father king. Venus is the daughter. Cancer is the place of ocean. Venus is in Cancer. Cancer is north. Scorpio is north where there is Dragon-Head.

Therefore Venus+Dragon-Head prevails (Venus is in dark), so is in a dark oceanic side. Moon is at the edge of

the ocean. Moon is in last degree of Gemini. Venus and Moon are in between Dragon Head and Dragon Tail i.e. in dark. Saturn is in 11th from Sun. Saturn and Sun are enemies. Hence the King is worried of enemies who can be a cause of trouble to his daughter.

When Saturn is with Sun and Mars he becomes weak and has to encounter with inimical planets. But Venus is friendly to Mercury. He is with the burning planet of Sun and Mars., hence Venus cannot be of help to Mercury.

The native is suffering due to enormous troubles pertaining to his career, especially troubles due to higher officers, besides, there has been a constant restlessness in the native's family quarters.

It can be observed from the chart, that Mercury cannot meet his friend, Saturn, Because, he is under the clutches of Dragon-Tail and Mars. Hence, under the above circumstances, the native decides to resign his job.

Disciple:

Master, is it possible for the native to quit/ or resign the job-explain?

Master:

The native (as mentioned above) neither can quit nor resign, his job but can seek a transfer.

Disciple:

Master, kindly explain how the aspect of transfer comes into picture regarding the native or in other words, whether he gets transferred totally to a different place along with bag and baggage or will he be in travelling situation (coming and going to his present place) - kindly explain?

Master:

Saturn is work who is in West, Jupiter also in West with the displacement planet of Moon. Saturn is work, Jupiter is life, both are with Moon according to directional aspects. Hence there must be change of place.

The native is Mercury who is under the control of Dragon-Tail, but they are in South. South is aspected by Jupiter who is Retro. Therefore the native has to overcome difficult situations from the time of direction motion of Jupiter.

Hence the native has to continue with his job.

In this chart second to Moon there is Mercury and Dragon-Tail is 5th from Mercury. Hence indicating land dispute, besides cheating too. Dragon-Head is in rear sign to Moon which is another indication of "VYAYA" (the losses). Venus is 5th from Dragon-Head, hence it can be observed that the native's wife is under the control of inimical aspect.

According to directional aspect there are planetary combination of Dragon-Head+Venus and Mercury+Dragon-Tail in South. In between these two combination cheating planet of Moon is residing. Hence the native's land, wife, and the status of the native, all are at stake.

And due to interchange of Venus and Jupiter, Venus occupies Libra which is 11th to Moon - or in other words, Jupiter is a respectable planet who is having link with Venus by interchange. Hence it is an indication that one of the female folks in the natives house will have involvement with some

other man. Jupiter is Retro, he is aspecting rear sign South; 5th and 9th to the South there are Mercury and Dragon-Tail. Hence, it is an indication the native's wife should have some involvement with another man.

This other man is already having an affair with some other woman, and this man and other woman will be quarrelling with each other.

Delineations for the above factors:

Moon is the native. Mercury Dragon-Tail conjunction prevails (by directional aspects., hence it is an indication of litigation regarding lands). Saturn (Karma) is in between Sun and Mars, hence there are some disputes, and troubles pertaining to native's carrer.

Retro Jupiter aspect rear sign which is South. South is occupied by Mercury and Dragon-Tail. Mercury is female, while Dragon-Tail indicating litigation. Hence it can be observed that the native's wife will have an affair with other big person, and this person already having an affair with some other woman and he will also be quarrelling with that woman.

Note:

When a native questions in any Hora, it is important to make a note of the second and 11th bhava to the Hora Lord and the planet in the bhavas to be taken as an important guiding factor, for delineation.

Mercury is 11th from Jupiter and Mercury is aspected by Moon from 7th indicating Mercury is a relative or friend, pertaining to lands. Moon indicating cunnungness, and hence the native is suffering due to cheating through relative and close friends. Also Jupiter is in north, Moon is in north. Therefore the native will have to visit different distant places.

According to directional aspects Jupiter+Moon, native will have to undergo some changes within a duration of 7 to 8 months. Because Jupiter resides for one year in a sign where he has already passed 3 - 4 months in Scorpio and enters Sagittarius, after 8 months. Hence native will have to undergo some changes within a period of 8 months.

Nextly, Moon is in second to Retro-Saturn. Hence the native has got dilema whether to change the position or not in respect of his carrer. Retro-Saturn is aspecting rear sign Capricorn. Jupiter is in 11th to Capricorn. Hence the native

enjoys some beneficial factors, after a period of few months (from the time of consultation),, because Saturn is in the last degree of Aquarius. When Saturn reaches Pisces, at the same time it can be considered as Saturn+Moon+Jupiter. Hence certain change will be expected in the native's career. Dragon-Tail is in East. Sun and Venus are also in East. Saturn is in 11th from Dragon-Tail, and hence it is an indication that some of the money-matters and benefits due to native are in litigation.

Dragon-Tail is in starting degree of Aries or in other words - Anti-clockwise-Dragon-Tail has passed already above 3/4th degree of Aries and hence it can be concluded that the above mentioned litigation would arrive at a solution within a period of 3-4 months.

Native is the Jupiter who is in North and second to North is East, where there is male planet Sun, female planet Venus and second to Sun there is Mercury. Therefore the native will be a father of one male and two female children. Mercury and Moon are aspecting each other and this is an indication that the native is amorous.

b) For the above chart, a second party appears in Mars Hora.

Mars is in the sign of wealth, and behind Mars in there is Dragon-Head who is inimical. Dragon-Head is in between Mars and Mercury (Mercury is in the sign of commerce) indicating that the native's career is related to Accounts. Saturn is 5th from Mars and (according to directional aspect) Saturn,

Dragon-Head and Mars in West; Mars is inimical to Saturn. Dragon-Head signifies black, Tamoguna and planet of mouth. Native is not having adequate job satisfaction, and as it is, in the prevailing career there are quarreling. Venus and Sun are 11th from Mars and they are in East, while Dragon-Tail also is in East. Venus is the wife which is under control of Dragon-Tail and Sun. There is no Jupiterian aspect to Venus either from 7th or 5th or 11th. This is an indication that the native will have late marriage. The master is explaining here that one of native's sister shall be bereft of family happiness. Jupiter is second to Mars and the native is expecting considerable degree of benefits. But on the other side, Saturn will have to cross Moon and Dragon-Tail and during this transit native leaves his present career and Saturn according to Transit when enters Taurus and at that time native gets a responsible job and it can be either by leaving the country or travelling a long distance.

Jupiter and Saturn are in north signs where Retro-Jupiter is aspecting the rear sign. Retro-Jupiter cannot be of help to Saturn. Moon and Dragon-Tail are in East, they are in second to Saturn. Therefore, Saturn cannot cross-these two enemies to get benefits from Venus and Mercury.

Mercury tries to help Saturn in money-matters by Retro, because Saturn is 11th to Mercury and Mercury cannot help Saturn because Dragon-Tail is in between Pisces and Taurus.

Disciple:

Master, kindly explain how to determine that Mercury knows that his friend Saturn is in need of financial help?

Master:

Because Saturn is in north, Mercury is in South. Venus is the native. Saturn is 11th from Venus, while 11th indicating benefits and work of native, which cannot be fulfilled, because it is under the control of Dragon-Tail and Moon.

(B)

For the above same chart, the time of consultation indicates the native is questioning pertaining to Chaya - / cinema. etc.

At the time of consultation Mars and Moon are in the East, and when the native sits for consultation Mars was in 15 degree of Leo and Moon in 16 degree of Sagittarius

Mars and Dragon-Tail are in rear degree to Moon, thus indicating the native is suffering due to hardship, struggles, impedimental factors at the time of consultation. These three planets are in 11th from Dragon-Head, where Dragon-Head signifies darkness, Mars is machinery, Moon is art, hence Chaya, Yantra and Kala (cinema). Sun, Mercury and Venus are the audience.

2) opposite sex attraction to the native:

The native enjoys opposite sex attractions. There is conjunctional aspect of Moon and Dragon-Tail (according to directions). Moon is mind, while Dragon-tailo indicates control. They are in the East. Second to East there is South (clockwise). The clock-wise Moon is having Retro planet of Marcury and the female planet of Venus in South.

Hence the native can become a cause of attraction to female folks, because Moon is in East. Retro Mercury is aspecting towards Moon with Venus. Venus and Mercury are 1/2 aspected by Retro Jupiter, thus indicating regarding the marriage, it can be concluded that the native can marry when Jupiter aspects directly towards Venus and Mercury. i.e. when Retro Jupiter becomes direct.

Regarding bachelorhood of native:**Disciple:**

Venus and Mercury are 5th from Moon. The native is consulting regarding wealth and business.

Jupiter is aspecting South and hence it can be observed that the native is also questioning regarding settlements in life, business affairs and marriage.

When Moon is in 5th from Venus, it is an indication the native will have to undergo some changes regarding place of business or place of residence and Venus is aspected by Saturn from 7th is another indication the native is questioning regarding Karma (carrer aspect). Saturn is 5th from Mars and Dragon-Head. Hence the native will have carrer pertaining to wheel, machinaries (a technically based carrer) and Moon is 11th from Saturn, and hence is an indication the native is having carrer pertaining to travelling lines (machineries as mentioned above).

Hora Lord: Saturn

- 1) First woman: Dragon-Tail is second to Saturn and Mars is 5th from Dragon-Tail+Mars+Moon are in second sign to Saturn and hence an indication that the native is questioning pertaining to quarrels in her family affairs, some obstructions in career. Saturn just entered Pisces from Aquarius. Taurus is the third sign to Pisces, but in Taurus Venus is in starting degree, Mercury and Sun are in successive degree and Mercury is Retro. Hence native is asking questions pertaining to such problems and chanceses of overcoming the problems pertaining to career. She is also expecting some wealth and

house property. About quarrels in the family, where husband and wife having differences.

Mars is the husband and Moon indicating cunningness. Dragon-Tail indicating binding i.e. her husband is behaving in an erratic manner and actions not being fair and just.

Third sign (Taurus) is the South, and Saturn is in north and there is aspect of Venus and Mercury on Saturn and hence it can be observed that in the native's family affairs, the above problems will be prevailing, because there is transit of Dragon-Tail (at the time of consultation). Dragon-Tail transit is in Aries and coming next to Pisces. Hence, it is inevitable that the native has to face such ordeals, worries, disappointments as restlessness, and unhappiness for the next 3 years.

(b)

A second lady consulting in same Hora chart. In this case, the combinations of planets remains same, but at the time of consultation of first party Moon was behind Dragon-Tail and during second party's case Moon is after Dragon-Tail (i.e. Moon just passed the degree where Dragon-Tail was situated) who is nearest to Venus. Hence Venus is second to Moon. Hence, according to successive degrees=Moon+Venus+Mercury+Sun and these planets are third from Saturn and the above combinations is indicating that Moon is aspecting Venus from Aries, Mercury aspecting Venus by Retro. When they are 11th to Saturn, indicates the question pertaining to wealth/property aspects etc. and also indicating that there are some cunning elements working to USURP wealth/property of the family, besides quarrelling too (because of Moon). Therefore, it can be assessed the second woman is questioning pertaining to benefits regarding her husband's property.

Disciple:

Oh, Master kindly explain, how to determine that the second native is particularly questioning regarding her husband's property?

Master:

Mars is in East - Aries is the East. Mars is in the husband. Taurus is second to East, and hence it can be concluded that the native enjoys some beneficial factors after the Transit of Dragon-Tail to the next sign. (i.e. within a period of 1 1/2 years things arrives to a settlement in favour and expectations of native)

Conclusion

It has to be observed that when the first female was questioning Moon was behind Dragon-Tail, and the question was relating to beneficial factors of House property. When the second lady was consulting Moon was in second to Dragon-Tail, and hence questions pertaining to property, wealth, and some cunning factors going on in the family affairs.

From the above cases, it can be concluded that degree of Moon is to be taken accurately for interpreting the Hora effects.

The native is born in a good family besides the native's father a reputable person. But Sun is aspected by Saturn, is an indication that the native's father has to overcome some inimical aspects.

About the native, Saturn is 5th from Mars, hence is an indication that the native is questioning regarding some of his career aspects. But for Saturn before Retro, there was one position and after Retro another position. Hence this is an indication that the native has already left one career expecting a new career. Hora Lord: Mercury Hora.

The above chart is explained as follows:

Dragon-Tail is in 3 degree at Aries, Moon is in Taurus in 22 degrees. Sun is in 29 degrees at the Leo Venus is in a degrees, Mercury is in 24 degrees at Vigro; Dragon-Head is

in three degrees at Liba with Mars is in 12 degrees. While Jupiter is in Scorpio 14 degrees. Retro-Saturn is in Aquarius in 27 degrees. Retro-motion and planets in second to Hora Lord and planets with Hora Lord; are some of the important points to be considered.

The native (two ladies) have appeared in Mercury. Hora Behind Mercury is friend Venus Mercury is the Hora Lord (the native); second to Mercury Dragon-Head is in successive degrees and Mars is behind anti-clockwise Dragon-Head. When Mars is swallowed by Dragon-Head, it is an indication that the native's husband is already far away from her, (unreachable distance) from this universe, because according to directional aspects and degrees, Dragon-Head is in three degrees, Mars is in 12 degrees in West; Retro-Saturn also in West in 27 degrees. Hence the combination Dragon-Head + Mars + Saturn indicates that the native's husband is deceased followed by accident.

Another reason is that Mars is in between two enemies Saturn and Dragon-Head, while the Retro Saturn is kicking his enemy Mars, where Mars is the husband of the native.

Disciple:

Master, kindly explain how to determine that the native's husband was already dead (at the time of consulting)?

Master:

Because Mars is the husband, Dragon-Head is the Kala-purusha. Anti-clockwise Dragon-Head is in 3 degree of Libra and Mars is in 12 degrees, which indicates that Mars is already swallowed by Anti-clockwise Dragon-Head.

Disciples:

Master, I have got some doubts here, Sun is in 11th to the Mars and Jupiter is in second to Mars. Hence, these two powerful friends should have saved the native's husband, but why he was not saved - kindly explain?

Master:

Sun and Dragon-Tail are in East. Saturn is in 7th to Sun. Hence the power of Sun is lost. Also Sun is in last degree at Leo. Second to Sun there is his enemy Venus. Hence, Sun even here becomes completely weak.

And Jupiter is in Scorpio who is directly aspected by exalted Moon. Hence Jupiter's power also gets reduced. Mercury is 11th from Jupiter. Jupiter is aspected by Moon and the native enjoys some beneficial factors from medical lines (JEEVA RASA). Virgo is in South. South is aspected by Retro-Saturn. Saturn aspects towards Sun; hence the native (she) will have some career pertaining to government lines.

Disciple:

Master, is it possible to determine regarding the name of the native and its aspects, kindly explain?

Master:

Mercury is the native who is with Venus. Moon is the planet indicating artistic lines who is exalted (Moon is art), where Mercury indicating intelligence. Dragon-Head is the Drum portion of Veena (a musical instrument of strings) where Mars and Dragon-Tail are strings of Veena instrument. Saturn (Karma) is 5th from Libra. There is Retro-direct motion of Saturn, hence the action of Karma acts on Veena (the musical instrument) Therefore, from the above, it can be

determined that the native's name belongs to the category like Saraswati.

Also, for the same name Moon is Water. Mercury is lead. Venus is the Lotus. Second to Virgo there are Dragon-Head and Mars. Hence the leaf is on water, the flowers are on leaf and there the Goddess Saraswathi is situated holding Veena instrument.

Hence from the above, it can be determined that the native's name is connecting to Goddess Saraswathi or the name like Anuradha or Ganga Sri and similar names. Now for the first native, Dragon-Tail and Sun are in East. Saturn is in 11th from Dragon-Tail. Hence it is an indication that the native is suffering due to some disputes - litigations.

Solutions:

The above problems would arrive at a solution when Saturn Transit comes to Pisces and then only relief could be expected.

Regarding the second lady (the second party) who has accompanied the first lady, the second lady indicated by Venus. Venus and Mercury are friends. Hence the two ladies having approached for consultation are friends. Second sign to Venus there is Mars located between Saturn and Dragon-Head. Hence the second lady also has lost her husband.

Disciple:

Master, your noble self explained that the first party is Mercury having lost her husband. Then, how to consider that the second party (Venus) is also a widow. Because Moon and Mercury are in successive degrees to Venus, then how the second party is also a widow - kindly explain?

Master:

Venus is debilitated in Virgo and Venus is in 6 degrees. Moon is in 19 degrees. Mercury is second to Moon where Moon indicates inter-caste. Moon and Mercury conjunction indicates debauchery. Taurus and Libra are the sign of Venus. While Aries and Scorpio are the sign of Mars and they are 7th to one another accordingly to signs where 7th is indicated as husband or wife. Hence, we will have to consider that Mars is the husband of the native who is already buried in grave yard. Hence Venus is involved in immoral affairs with the opposite sex. Hence from the above deliberations, it can be concluded that the two female natives having appeared for consultation are widows. Anyhow, regarding the second native, it can be said that she is having career pertaining to liquid, milk etc.

(c)

On the same day a man comes for consultation (in evening) under Mercury Hora. But the Moon position had passed 25 degrees. According to directional aspects Moon is in 25-and-odd degrees, and Venus is in 6 degrees. Where Mercury is in 24 degrees. Moon has passed the degrees of Mercury. Dragon-Head and Mars becomes second to Moon in successive degrees. So, when the native had come for consultation in Mercury Hora in the evening. Moon was in 2 degree to Mercury and this is an indication that the native (mercury) has come from a distant place for purpose of consultation.

Disciple:

Master, how to establish, whether the native had come from the same provinces or (or outside the state) or from very long distance (a different country)? - kindly explain?

Master:

The native had come from the same state- because Virgo is the own sign of Mercury indicating that the combination of Mercury and Moon indicates travellings and Moon having crossed Mercury in the same sign. Hence it is Mercury Hora. Therefore, the native must have come from a considerable long distance. Second to Moon (as per directional aspects) there is Dragon-Head and Mars including the conjunctinal aspects regarding of Saturn. Saturn and Mars are enemies. Hence, it can be deduced that the native is asking regarding, career and also the native is having some problems pertaining to his career. It can also be observed that Mercury and Venus are 11th from Jupiter, and hence the native is asking regarding the time of his marriage.

Solution:

When Jupiter Transit comes in 5th to Virgo, then the problems of the native finds its solution.

The native is questioning in Mars Hora. He is explaining that all that he is touching is going to dogs. Mars is with Dragon-Tail, Saturn is in rear direction.

Mars is in East; while beneficial planets Sun, Mercury and Sun are with Moon and Dragon-Head, thus indicating that all beneficial planets are under the control of Dragon-Head and Moon. Hence, the native, instead of enjoying beneficial factors, is suffering. Moon and Dragon-Head are in third to Mars-hence all his efforts and strains are going in vain.

Solution:

The native begins to enjoy beneficial factors and prosperity only after the Transit of Dragon-Head comes to next house, Virgo.

Note:

In the above cases, it can be observed that the name of the parties consulting here almost belongs to the name of Lord Eshwara. Dragon-head is sky, while Dragon-Tail is the

bottom (earth). (They are anti-clock-wise). In between Dragon-head and Dragontail there is the Karma planet Saturn and life planet Jupiter. Retro-jupiter is having aspect of Sun who is in the West. Therefore, Sun + Jupiter = Jeevatma - Karma is at bottom or Jupiter and Sun are below the earth and sky. Hence the natives names are pertaining to the name of the Lord Eshwara and such names like Jagadish, Umesh, Nartaraj, Manjunath etc. Jupiter and Saturn indicates Eswaramsha.

In Libra Dragon-head +Mars +Jupiter (in Scorpio) Moon is in Capricorn; Saturn is in Aquarius. Sun is in 16 degrees, Retro +Mercury is in 18 degrees. Venus is in 28 degrees, Retro-Saturn is in 26 degrees.

The party is consulting under Mercury Hora. Mercury is Retro;

Moon is in 5th from Mercury; Retro-Saturn is aspecting Moon. Hence the planetary aspects viz, - Moon +Saturn and Mercury +Moon + Venus prevails, thus indicating Moon degrees in between Mercury and Venus. Moon and Saturn indicating elopment case. Also, it can be observed that Retro +Mercury is aspecting Sun (Sun is male, while Mercury is female who is exalted).

So, from the above, it can be assessed that the woman is a knowledgeable, educated family, who is eloping with her lover.

According to signs (Rashis) Moon is inside Dragon-Head Sun and Mercury are in front of Dragon-Head's mouth. Hence these two persons are running away and also going to a considerable distant place with some money.

Disciple:

Oh! Master, how to conclude she is going away with money - kindly explain?

Master:

Venus is the governing planet of money; who is also with Mercury. Moon also in direction aspect to these planets. Hence, they are going away that too to a far off place.

Disciple:

Oh! Master, how to assess that she is an educated one? kindly explain?

Master:

Mercury (educational aspect) is exalted and he is 11th from Jupiter; Hence she must be an educated one.

Disciple:

Master, how to assess and know whether by elopment they are safe or not, under the prevailing planetary combinations.

Master:

The Sun and Mercury are 11th from Jupiter, hence they will be safe by blessing of God.

Another party on the same day appears for consultation under MARS HORA. Mars is in Libra in 24 degrees. Dragon-Head is in second degree and Saturn is in 5th from Mars. According to directional aspects there are planetary combination of Mars + Saturn + Jupiter. Hence, career aspects (here observe the degrees) and the native has lost wealth/land facing hardships. Because, Dragon-Head is the major enemy of Mars who is rear to Mars, wealth and business planets Venus and Mercury respectively are rear to Dragon-Head. Or in otherwords, Dragon-Head is in between Mars, Venus and Mercury. Hence the native at the time of consulting is suffering from calamities as can be observed from the chart. Saturn is inimical to Mars, but it is to be observed that Saturn is between Jupiter and Mars according to directional aspect and successive degrees. (Mars is in 24 degrees, Saturn is in 26 degrees, while Jupiter is in Scorpio). So, it can be assessed that the Hora Lord would not be subjected to much, hardships in future, because, Jupiter is in second sign to Mars. From the above it can be concluded that the native will have some career (business) after few months from the time of consultation.

(c)

On the same day, a person is appearing for consultation (in evening) and there is little difference between Moon and

Venus degrees. Sun is in 11th to Jupiter, hence it can be assessed that the native is hailing from a respectable family background himself being a respectable person too.

Retro + Mercury is aspecting Sun. Mercury is meant for land and hence the native gets some property within a short time (from the time of consultation).

Venus and Mercury are female planets and Dragon-Tail indicates Flag sign. Hence the native is having more female issues. Venus is daughter to Sun (according to Hora) and Mars is the husband of Venus. But Mars has just entered the mouth of Kaala-Purusha (Dragon-Head). Therefore, one of the daughters of the native is a widow (having lost her husband) and Moon is 5th from Mercury. Hence one of the native's daughter will have immoral affairs.

Dragon-Head is in second degree in West., while Moon is in 23rd degree in South or in otherwords Moon is nearest to Dragon-Head. Hence it can be seen that one of the female folks in the native's family is suffering due to mental restlessness and dis-appointments. According to directional aspect and degree Moon is in between Mercury and Venus, thus indicating that there are indications of cheating and fraud regarding the native's sister's family property.

Solution:

As a matter of solution to the above, after a period of 1 1/2 to 2 years, when Dragon-Head enters Leo, the problems subsides and arrives for fair settlement.

Jupiter is in North who is 11th from Moon, thus indicating that the native is under irskome situations, besides she is under Capriciousness, considering her prevailing mental status (because of Moon). Mars is the lords of Scorpio, and Dragon-Head is in between Mars and Jupiter. Hence it can be assessed that Moon and Dragon-Head not permitting her to have happiness with her husband (although she has inclination towards divine contemplation). She has abandoned her husband while having affair with another male-foik (affair with Saturn) Here at the time of consultation, her question is whether she can have him as her permanent companion, because Retro-Saturn is returning, towards his own sign and Moon is about to approach the Saturn-within a short time. Hence the person on whom she is trying repose confidence and wants him as a permanent companion would go away or desert her.

(b)

For the same chart a person is approaching under Mars Hora. Anyhow he is now working as a Security/Watchman/Guard/ a sentry in Governmental or a royal court.

Disciple:

Kindly explain, how to decide that the native is working at the main door of governmental/ royal court?

Master:

Dragon-Head is in West who is the causitive planet of entrance (mouth). Sun, Mercury and Venus are also in West (as per sign directions) and they are all in West with Dragon-Head according to aspectual conjunction. So, they are stationed in West, the door is in outside and in front of the door, Mars is standing.

Hora Lord: Mercury (Retro)

The party consulting in this context falls under Mercury-Hora, where Mercury is Retro. Sun and Mercury both are in 17 degrees known as combustion stage. Although Mercury is exalted in Virgo, Mercury is under the control of Sun, because Sun is the most powerful of all planets. Hence the native is under the control of Sun. In previous charts when Mercury was in 11th from Jupiter, it implied as higher education and also powerful status of native. But here Retro-Saturn is appealing to Sun and Dragon-Tail is in rear to South (Dragon-Tail is in East, rear sign of Virgo is East). Hence, it can be assessed that the native here in the context, is appealing to the higher authorities and requesting legal counsel for the benefits that are due to her from the place where she works, because she is encountering some problems in the place of her work. And also, second to Virgo there are some quarrelling

aspects i.e. between Mars and Saturn including Moon. Mercury cannot pass to the second house, because of the quarrelling aspects (as mentioned above) between Mars and Saturn, Venus and Moon. And hence it can be observed that the place of benefit to Mercury is under the stage of disputes. Or in other words, the place in which the native works there are quarrelling aspects in the management, and thus the native is constrained to appeal before the higher authorities for the benefits that are due to her from her office.

Disciple:

Oh! Master, kindly explain whether she gets any benefits or losses, in such a situation?

Master:

Mercury and Sun are 11th from Jupiter and hence the native will get some benefits following her appeal and would not suffer due to failures because Jupiter is the guide and his aspects remains as a supporting factor and the native surely enjoys fair settlement.

On the same day, another native appears in Moon Hora., and the native is questioning regarding issues (birth of a son) Jupiter and Sun are the causitive planets of Son. Saturn is in successive degrees to Moon (Moon in 8 degrees, Retro-Saturn in 26 degrees).

Disciple:

Master, kindly explain how to decide that the native is questioning regarding male issues? Because the native should be aspecting regarding career, since Saturn is aspecting Moon. The question of asking regarding male issues does not arise? - kindly explain?

Master:

Aquarius and Libra are West and Moon is universal Mother. Saturn is Eswaramsha, Retro-Saturn is approaching to meet his wife. Retro-Saturn (Eswar) is also approaching to meet Parvathi and while they trying to meet each other, it indicates that a man and woman is approaching to meet each other. But in the West Moon is in 8 degrees and Mars is in 25 degrees; Saturn being in 26 degrees by Retro and hence it is understood that mother and father are coming to meet each other to see the son (Mars is the son, the Lord Shanmukha) and hence; it can be observed that in between Mother and Father the son is stationed and hence it can be assessed the native is questioning regarding male issues.

The master explains to the disciple that the native is involved in such career of making roasted materials (Jeeva-Rasa Savouries). He sells products coming out of fire and roasted products and these roasted products coming out of iron pan which is used for preparing savouries.

Disciple:

Master, kindly explain how to decide that the native's livelihood is preparations of Savouries and how to decide that iron pan and roasting are involved.

Master:

Consider the West sign of Libra and Aquarius. Where Dragon-Head is in second degree. Dragon-Head indicates iron pan (a round shape) and Mars is fire below the iron pan. Venus is in 1 degree, where Venus indicates beauty round and oval; shape and the native drops some mixture of materials in the iron pan. Moon is in 8 degree (indicating-eatables), while Retro-Saturn indicating career and Mars is

heat; Moon indicating eatables (planet of taste) and hence it can be assessed that the native is involved in the preparation of savouries and selling them for livelihood.

Disciple:

Master, kindly explain, how to decide that the native gets female child?

Master:

Venus is the female planet which is in 1degree (and odd) which is almost nearer to the mouth of Dragon-Head and hence, it can be observed that Venus follows Mars (i.e. the son borns first, next, daughter) - male issue first, female issue next. It can also be observed that it is absolutely essential the parents (the native) must worship Shakthi-Shiva Pooja in order to be get children. Sacred offerings to the Lord of Fire through the sacred altar (Homa) must be performed.

Disciple:

How to decide that the native is involved only in such career like beautification (as mentioned above) and not other career - kindly explain.

Master:

Mercury is and 11th from Jupiter. Here he is I have got some doubts here - viz that Venus and Dragon-Head are in 1 degree (same degree) and Mar's is in last degree of Libra. Also, Mars has passed more degree from Venus and Dragon-Head and hence is it possible to assess that the native's wife has undergone any surgical operation? kindly explain?

Master:

Mercury is the Hora Lord. Venus is the Lord of 2nd and 9th who is under the control of Dragon-head and there is planet of Surgery; the Mars. Also Moon has just passed West. Hence, it can be assessed that the motherhood of the native's wife has suffered due to surgical operation and relavant breaks. Also Mercury is the causitive planet of sister who is in south and planet of dispute is in East and planet of accusation Moon is in North. Dragon-Tail is in between Moon and Mercury. Hence, one of the native's sister or an younger brother involved in family disputes and suffering due to restlessness.

Because Mercury is 7th from Moon and Jupiter is with Moon (according to directional aspects), then how to decide that (b) native is not much educated - kindly explain?

Master:

Mercury is in 15 degrees, Jupiter is in 17 degrees; so Jupiter and Mercury are in nearest aspects. Mercury is exalted but not for the Moon.

Also observe, that Moon has to pass 14 degrees to see Mercury and Moon must pass 16 degrees to reach Jupiter, and hence it can be assessed that (b) native is not much educated.

Disciple:

According to directional aspects Moon and Jupiter are in same direction but Sun and Mercury are 11th to Jupiter, then kindly explain its effect?

Master:

Sun is the causitive planet of father. Moon is in 7th to Sun and Sun is 11th to Jupiter. Son is father, while Jupiter is guide., and Moon indicating art; and hence it can be assessed that the native's father should be a magician.

Sun is in 25 degrees, Mercury is Retro in 15 degree at Virgo and Moon is in 7th to Sun, thus indicating own house of Sun is about to be occupied by Retro-Mercury and Sun becomes helpless, because second to Sun there is the enemy Dragon-Head and next to Dragon-Head there is Venus. Therefore the native's father sold his house while facing enormous hardship and also thinking of purchasing another House property. But Dragon-Head is in between Venus and Sun, thus indicating Sun should pass Dragon-Head to purchase house property. But when Sun enters Libra he should be involved with Dragon-Head and here Sun becomes debilitated. Hence, the native's father, due to above circumstances would not able to purchase another house property, but only in next birth. Another factor that can be observed here is that although Mercury is the close friend of Sun, he is Retro. Third house

Disciple:

Master, kindly explain how to decide that the native is only expecting some job/ career aspect, and why not say directly career.

Master:

Because Saturn is not in Capricorn but he is aspecting it by Retro which is the 3rd sign (as mentioned previously) and hence it can be deduced that the native is expecting some job/career, instead of saying straightly, career.

And also Mars and Saturn, both are in West and also they are in 25 degrees, and thus indicating there are some problems of obtaining career, because 7th sign from Jupiter is the sign of Venus. Out of two wives, one is weak because Venus is debilitated. Sun, Mars and Dragon-Tail are 9th from Ascendent. Hence it is understood they are enemies to the Hora Lord Saturn. Here, it is to be observed in this chart that Venus is alone and although Dragon-Tail is in 5th there are no planets in 2nd and 9th from Venus. Venus is under the control of anti-clockwise Dragon-Tail. The inimical planets Moon and Saturn are enemies to Dragon-Tail and Moon and Saturn are in 12th to Dragon-Tail.

Mercury and Moon are in 11th to Venus, thus indicating the native's daughter suffer premature death besides having immoral activities during her short sojourn of life.

You have to observe that Mercury is debilitated; Mars is inimical to Mercury who is in 5th; Sun and Saturn also being in 5th and 9TH to one another and when there are quarrelling among themselves, Moon cannot pass Aries where there is Dragon-Head; hence Venus becomes totally helpless.
